RESUME SUMMARY

AWS Cloud Enthusiast | EC2 | S3 | DevOps Beginner | Exploring the Future of Cloud Computing | Passionate About Automating & Scaling with AWS Complemented by certifications in AWS and AI, I aim to excel in the tech industry | currently working on Servers and Monitoring

PERSONAL DETAILS

Current Location	CBD Belapur, Navi Mumbai, Available for Relocate
Date of birth	February 23, 2003
Gender	Male

EDUCATION

Graduation	B.Tech / B.E. (Computer Science and Engineering (CSE)) Dnyanshree Institute of Engineering and Technology, Satara with Score 6.98%
Class XII	Maharashtra with 82% in 2021
Class X	CBSE with 70% in 2019
Certification Course	Artificial Intelligence Internship Introduction To Amazon EC2 AWS Fundamentals Basic (November 2023 - Present) Aptitude And Soft Skills AWS SaaS Tenant (August 2025 - Present)

INTERSHIPS AND PROJECTS

Internships	ModGen Solutions pvt LTD (Duration February 2026 - May 2026) I am currently working in good company where I get to learn each and every aspect related to Servers and even networking part and even ESXI with some in cloud and most sensitive part Monitoring and resolving issues as we can say it is startup with 15+ years of experience so due to this gets each and every part of company to study Skills used - VMware ESXI, Monitoring Tools, Dell Server, Client, Networking, Ticketing Tools, Desktop Support CRAVITA TECHNOLOGIES (Duration July 2025 - December 2025) I worked with core AWS services such as EC2, S3, RDS, IAM, Lambda, and CloudWatch, VPC, learning to design and manage scalable, secure, and cost-efficient cloud environments. Overall, the experience enhanced my skills in cloud architecture, and cloud-native deployment strategies, preparing me for real-world cloud engineering and DevOps roles. Skills used - AWS, Cloud Computing, Networking, DevOps, Communication Skills
-------------	---

Projects

S3 Event Notification System SNS (Duration November 2025 - November 2025)
S3-SNS Notification System is a lightweight AWS-based solution that automatically sends alerts whenever changes occur in an Amazon S3 bucket — such as file uploads, deletions, or updates.
Skills used - Amazon Sns,s3

3-Tier Architecture using Terraform (Duration October 2025 - October 2025)
A structured that separates an application into Presentation, Application, and Data layers — improving scalability, maintainability, and security.
Skills used - Amazon Ec2,Vpc,IGW,IP Subnetting,NAT

Static Website Hosting on S3 (Duration October 2025 - October 2025)
Host a fast, secure, and cost-effective static website using Amazon S3. Store your HTML, CSS IN S3 bucket

AWS VPC Setup — NAT Gateway with Three Private Subnets (Duration August 2025 - August 2025)
Creating a VPC with one public subnet (hosting a NAT Gateway) and three private subnets, allowing private instances to access the internet securely through the NAT Gateway.
Skills used - VPC,NAT,EC2,Networking,IP Subnetting,IGW,ROUTE TABLE,Jump server

MongoDB Line-by-Line Data Viewer Using Node.js and Express using Docker (Duration January 2025 - January 2025)
Developed a Node.js and MongoDB web app that fetches data from localhost and displays it line by line in the browser.
Skills used - MongoDB,Docker,Docker Container

 SKILLS AND ACHIEVEMENTS

Skills	Linux,AWS,Operating Systems,Amazon Ec2,Computer Networking,Amazon Vpc,NAT,S3,aws ASG,Network Load Balancing,Github,GIT,VPN Troubleshooting,Windows Troubleshooting,Network Troubleshooting,Hashicorp Terraform,Docker,Dell Server,Monitoring Tools
Language	English (Both), Marathi (Both), Hindi (Both), Gujarati (Spoken)
